

QUALITY POLICY

ECOAGRI SERBIA DOO base its business success and further development on products that are in compliance with user requirements, regulatory requirements and technical standards.

Orientation and aim of Ecoagri Serbia LLC is to become leader on Serbian market regarding production quality in the domain of:

- Organic field crops production
- Silo storage, drying, keeping and selling mercantile goods
- Production of organic flours and following milling products
- Digging, separation and selling of gravel

ECOAGRI SERBIA DOO accomplishes this goal by implementing and continuously improving the quality management system in line with the requirements of the standards ISO 9001: 2015, which includes:

- Identifying and managing of processes that contribute to customer satisfaction and implementation of measures to increase user satisfaction
- Achieving leadership role of management
- Active participation of employees in the planning, implementation and evaluation of all activities in the processes of realization of products and services
- Identification, determination and managing the processes and resources required for the implementation, maintenance and continuous improvement of the quality management system,
- Continuous improvement of the quality of products and services
- Decision making based on data collected and analyzed
- Developing partnership relationships with suppliers
- Permanent modernization of equipment and employee training
